Group Moriches MOR-0034 to 0034  
Group New York NEW-0115 to 0117  
Group Portland POR-0038 to 0041  
Group Southwest Harbor SWH-0046 to 0046  
Group Woods Hole WHO-0074 to 0076

[illegible][illegible]

The United States Department of Interior, National Park Service, has installed regulatory marker buoys in the bay and ocean waters around Sandy Hook, NJ. In position 40 25' to 40 28' latitude and 73 58' to 74 01' longitude. The buoys indicate No Wake Zones and areas closed to boat traffic. Spermaceti Cove, on the bayside at 40 25' 30" and 73 59' 00" is closed to all boat traffic due to wildlife management activities. Boaters are requested to remain outside of the buoys along the oceanside beaches due to high numbers of swimmers using the area. These buoys will remain in place until 10/31/97, at which time they will be removed for the winter season. For more information contact (908) 872-5933.

Charts: 12324, 12327 LNM 23/97

**II DISCREPANCIES** This section lists all discrepancies to Aids to Navigation reported and corrected since the last published list. A discrepancy is a change in the status of an aid to navigation that differs from what is published and or charted.

The following example explains the individual elements of a typical chart correction.

The letter (M) immediately following the chart number indicates that the correction should be applied to the Metric side of the chart only. (Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM).
